

## Trail Markers

At long last we've begun installing trail markers along the main Torrey Pines trails. *This will greatly help with locating visitors when they call for help, but don't know what trail they're on.*

The markers have initials for the trail name followed by a sequential number. Numbering starts at the trail head and increases towards the ocean. For the loop trails, numbering increases clockwise. Markers are installed every hundred yards on the right hand side (assuming you're walking with the numbers increasing).
